ABOUT

Full Stack MERN Developer with 2+ years of experience building web applications using React.js, Next.js, Node.js, and MongoDB. Experienced in authentication and role-based access, REST and GraphQL APIs, payment integration, and Web3 wallet integration.

PROJECTS

Sysseel – Service Marketplace Platform

- Built a service marketplace with service discovery, bookings, and provider workflows.
- Developed customer, provider, and admin dashboards with role-based access using JWT and RBAC.
- Built backend services for listings, booking management, and payments using Node.js and Express.js.
- Integrated Stripe payments and optimized high-traffic endpoints with MongoDB aggregation pipelines.

Taskbound – Web3 Bounty and Rewards Platform

- Built a Web3 platform where users earn crypto rewards by completing task-based campaigns.
- Integrated MetaMask and WalletConnect using Wagmi, with support for multiple blockchain networks.
- Implemented campaign creation, reward logic, completion verification, and an admin analytics dashboard.
- Structured the Express backend with MVC architecture and reduced bundle size with code-splitting.

TKO (To Know One Self) – Telehealth & Diagnostics Platform

- Built a telehealth platform for doctor consultations, lab and blood work orders, and digital prescriptions.
- Developed appointment scheduling, consultation records, and follow-up flows between patients and doctors.
- Built GraphQL APIs on AWS with secure role-based access for patients, doctors, and admins.

EXPERIENCE

Fuserr Solutions – Full Stack MERN Developer – Karachi, Pakistan – On-site

Feb 2026 – Sep 2026

- Developed TKO (To Know One Self), a telehealth and diagnostics platform, from start to live production.
- Built the React.js and Tailwind CSS frontend and GraphQL APIs with AWS cloud database and hosting.
- Implemented JWT authentication and role-based access for patients, doctors, and admins.

Code Rivals – Full Stack MERN Developer – Karachi, Pakistan – On-site

Feb 2024 – Feb 2026

- Built and deployed 5+ full-stack MERN applications serving 500+ monthly active users.
- Developed 30+ REST API endpoints with Node.js and Express.js, and optimized MongoDB queries.
- Built responsive dashboards with React.js and Tailwind CSS, reducing page load time from 3.5s to 1.2s.
- Integrated third-party APIs including payment gateways, cloud storage, and mapping services.
- Worked in Agile sprints with designers, product managers, and QA teams.

EDUCATION & CERTIFICATIONS

KIET – Bachelor of Science in Computer Science – Karachi, Pakistan

Expected 2029

- React.js Advanced Concepts (Udemy)
- Node.js Complete Developer Course (Udemy)

SKILLS & PROFICIENCIES

- **Frontend:** HTML, CSS, JavaScript (ES6+), TypeScript, React.js, Next.js, React Native, Redux, Tailwind CSS, Material-UI
- **Backend:** Node.js, Express.js, REST APIs, GraphQL, WebSockets, JWT Authentication, RBAC, MVC Architecture
- **Database:** MongoDB, Mongoose, Schema Design, Aggregation Pipelines
- **Tools:** Git, GitHub, Docker (basics), AWS, Vercel, Netlify
- **Web3:** Wagmi, Wallet Connection, Smart Contract Interaction
- **Languages:** Urdu (Native), English (Fluent)
